Radix DAO Weekly

The week in governance, without the scroll-back

WEEK 23 · 1 JUN 2026
1–7 Jun 2026
Telegram + RadixTalk

COMMUNITY MOOD · DAY BY DAY — 6/10 · same as last week

Previously: Peachy stepped away from the council, clearing the last KYC blocker for the DAO LLC; the wallet handover stayed in limbo and Hyperscale's milestone 1 was paid.

A quiet governance week: the council confirmed the Foundation's validator subsidy has ended for good, handing a cost question to the community, and posted its weekly update under the RAC account after Peachy adjusted permissions. Meanwhile builders asked who can push official wallet updates while the DAO is not yet formed.

WHAT THE ROOM TALKED ABOUT

Validator subsidy ends, fees rise

Andy.XRD flagged that the Foundation would not run validator payments after May; projectShift confirmed May was the last subsidy as voted and the matter is now 100% with the community. RadixPlanet announced a fee increase from 20% to 30% and Astrolescent from 10% to 15%, citing post-subsidy economics.

driven by Andy.XRD, projectShift

Who updates the wallet now?

With the Foundation in maintenance mode, Nicolai asked who pushes the official wallet update. flightofthefox said it is up in the air until the DAO is set up and takes over the accounts; Nicolai floated a future with no single official wallet, like BTC has no single website.

RAC update and Peachy's handover

projectShift posted a fresh RAC weekly update after Peachy made account-permission changes letting council members post from the RAC handle directly — something projectShift only noticed when Markus asked. Adam separately asked the council whether the project timeline is on track.

THE BOTTOM LINE

REMEMBER THIS

The Foundation's validator subsidy has ended for good — validator economics are now fully a community matter, and fee rises are already following.

NEXT WEEK

Watch for: whether the council answers Adam's question on its handover timeline, and whether any node runner follows RadixPlanet and Astrolescent in raising fees.

From the council & the crowd

What the tracked voices said, and the week's best exchanges.

COUNCIL & INSIDER WATCH

The council posted its weekly update from the RAC account for the first time after Peachy's permission changes, confirmed the validator subsidy is over for good, and forwarded a node-runner heads-up to the relevant channel.

projectShift TRANSITION RAC
Confirmed the Foundation's validator subsidy ended in May as voted, and posted the RAC weekly update from the council account.

flightofthefox HYPERSCALE DEV
Said official wallet updates are in limbo until the DAO is formed and takes over the accounts.

QUESTION OF THE WEEK

"Who pushes the official wallet update now that the Foundation is winding down?"

It's in limbo until the DAO is set up and takes over the accounts — nothing is settled yet.

> — PROJECTSHIFT

THE PULSE

The mood: Calm and procedural on governance: the subsidy question closed cleanly, but uncertainty lingers over wallet authority while the DAO LLC is still pending.

What the room expects to happen — and how last week's calls went.

PREDICTION TRACKER

PENDING

Phil Gibson's temp maintainer role formalised

No update this week.

PENDING

MFA could ship in roughly two months

No update this week.

NEW

More validator fee rises follow if costs stay uncovered

RadixPlanet and Astrolescent both raised fees after the subsidy ended.

JARGON, DECODED

Validator fee — The share of staking rewards a validator keeps from the emissions earned by delegated XRD.

Subsidy — Foundation payments that topped up validator earnings; these ended in May 2026 as voted.
