Radix DAO Weekly

The week in governance, without the scroll-back

WEEK 35 · 24 AUG 2026
24–30 Aug 2026
Telegram + RadixTalk

COMMUNITY MOOD · DAY BY DAY — 5/10 · same as last week

Previously: the Operating Agreement was approved, tranche 2 of the grant arrived, and the Marshall Islands DAO LLC filing was expected within days.

A decisive week: the Transition RAC opened and then closed the discussion phase for ratifying the Governance Framework v1, with projectShift walking the community through the Charter, its twenty policies and the on-chain ratification vote GP-PRE-1. Underneath the procedural momentum, Phil Gibson kept pressing whether adoption work should wait for the DAO transition to finish.

WHAT THE ROOM TALKED ABOUT

Governance Framework ratification arrives

projectShift opened the anchor thread for the ratification discussion of the Governance Framework v1 (Charter plus twenty policies), then announced the Transition RAC had ended the discussion phase and moved the process forward. He also posted an explainer of GP-PRE-1, the on-chain ratification vote via Consultation V3 (66% YES, 10% quorum).

Adoption now versus DAO transition

Phil Gibson argued the community is losing adoption momentum during the transition period and asked whether adoption work could run in parallel. foxylady and Bayesien countered that funded work is sequential — the charter vote and fund transfer must come first.

How should community proposals work

GENKIPOOL questioned the proposal model, arguing builders should create things first and seek funding afterwards — like taking a loan to open a bar rather than asking for money upfront. Timan answered that whatever the community decides by majority vote will be done.

Are permanent RAC seats paid

Yeahmad asked whether permanent RAC positions come with pay. Timan clarified they are voluntary until someone proposes otherwise, which likely requires new funding to flow in first.

THE BOTTOM LINE

REMEMBER THIS

The Transition RAC closed the Governance Framework discussion phase — ratification voting is now on the community's doorstep.

NEXT WEEK

Watch for: the GP-PRE-1 ratification vote opening on-chain, and whether any discussion-phase changes get folded in first.

From the council & the crowd

What the tracked voices said, and the week's best exchanges.

COUNCIL & INSIDER WATCH

The Transition RAC opened the Governance Framework ratification discussion, closed the discussion phase by its own decision, posted a new community update in the council channel, and had the ratification announcement pinned in the main chat.

projectShift TRANSITION RAC

Opened and then closed the ratification discussion phase, explained GP-PRE-1, and pointed the community to radixdao.org and the governance-framework GitHub repo as canonical sources.

"Attention, thoroughness and critical thinking are warranted, lest us end up with a Governance Framework that is not understood and challenged after it's ratified - a scenario that makes no sense."

Timan

Updated the community on the radixdao website move to Radix's own Cloudflare account and the finished consultation dapp, and clarified permanent RAC seats are voluntary until funded otherwise.

avaunt TRANSITION RAC

Reported the x402 spec inclusion pull request is submitted and awaiting review, and asked the chat to ease off the constant mockery.

flightofthefox HYPERSCALE DEV

Said selective disclosure via viewing keys is a good privacy approach for Radix and could support RoterHund's verifiable-finance vision; he is eager to see the product roadmap.

QUESTION OF THE WEEK

"Are the permanent RAC positions paid?"

No — they are voluntary until someone creates a proposal to change that, which probably requires new money or investments to flow in first.

DEBATE OF THE WEEK — WAIT FOR THE DAO TRANSITION OR PUSH ADOPTION NOW

ONE SIDE

Adoption and other workstreams cannot wait out a 200-day transition; the community needs a parallel plan and momentum now.

THE OTHER

Funded work is sequential — the charter vote and fund transfer must complete before budgets and working groups exist, and volunteers can start anything in the meantime.

Still open — expect a rematch.

THE PULSE

The mood: Expectant and procedural — the community is reading a dense rulebook knowing the vote is imminent, with a persistent undercurrent of impatience about pace.
